Fetching the Newspaper for Our Elderly Neighbor

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Every morning he brings our elderly neighbor her newspaper: picking it up at the end of her driveway, carrying it up the walk, handing it over, a biscuit and the walk home.

TIMELINE

0-5s	Picking it up
5-10s	Up the walk
10-15s	Handing it over
15-20s	Biscuit reward
20-25s	Walking home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Picking it up): End of a neighbor's driveway, early morning, cool misty daylight, wet grass and a mailbox post seen from the side. A rolled newspaper in a plain plastic sleeve lies on the asphalt. The dog trots up, sniffs it and picks it up by the middle. Sound: birds, dew dripping from a tree, plastic crinkling, owner whispers "go on". 5-10s (Up the walk): Neighbor's brick front walkway lined with low flower pots, misty morning light. The dog carries the rolled paper in his mouth, walking with a proud bounce, tail high, toward a small porch where an elderly woman in a pink robe stands waiting. Sound: paws on brick, tags jingling, the woman calls "there's my paperboy". 10-15s (Handing it over): Neighbor's small front porch, morning light, a welcome mat with no writing and a wicker chair. The dog climbs the two steps, sits in front of the elderly woman and lets her take the paper from his mouth. She laughs and pats his head. Sound: plastic crinkling, the woman laughs "right on time again". 15-20s (Biscuit reward): Same porch, soft morning daylight. The elderly woman reaches into her robe pocket and holds out a small bone-shaped dog biscuit. The dog takes it gently from her fingers and crunches it, crumbs falling on the mat, tail sweeping the boards. Sound: biscuit crunching, the woman says "you're spoiling me, not the other way". 20-25s (Walking home): Sidewalk between two front yards, morning mist lifting, wet grass shining in the pale light. The dog trots back toward the camera, looking over his shoulder once to the neighbor waving from her porch, then reaches the owner's legs and sits. Sound: paws on wet concrete, the neighbor calls "see you tomorrow", birds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
