The Farmer's Right-Hand Dog

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A working day on the farm: walking the fence line at dawn, riding in the pickup cab, guiding a few sheep through a gate, keeping the farmer company in the barn and a drink at the trough.

TIMELINE

0-5s	Walking the fence line
5-10s	Riding in the pickup
10-15s	Guiding the sheep
15-20s	Keeping company in the barn
20-25s	Drink at the trough

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Walking the fence line): Pasture fence line at dawn, pale pink sky, cold mist over the grass, wooden posts and barbed wire. A farmer in a canvas jacket and rubber boots walks along the fence and the dog trots just ahead, nose down, stopping to sniff each post. Sound: boots in wet grass, a rooster in the distance, cows lowing far away. 5-10s (Riding in the pickup): Inside the cab of an old pickup truck, early morning daylight, dusty dashboard and a cracked seat. The dog sits upright on the passenger side with the window halfway down, ears flapping slightly as the truck rolls slowly along a dirt farm track. Sound: engine rumbling, gravel popping under the tires, wind through the window. 10-15s (Guiding the sheep): Open green pasture, morning sun breaking through clouds, a metal farm gate standing open. A small group of six woolly white sheep walks calmly ahead. The dog moves slowly behind them in a wide arc, keeping his distance, and they file through the gate. Sound: sheep bleating, farmer whistles, the gate chain rattling. 15-20s (Keeping company in the barn): Inside an old wooden barn, mid-morning daylight through gaps in the boards, hay bales and an old red tractor. The farmer kneels by the tractor wheel with a wrench. The dog lies on the dusty floor beside him, head up, watching the barn door. Sound: wrench clanking, a radio playing faintly, swallows chirping in the rafters. 20-25s (Drink at the trough): Beside a galvanized water trough by the barn, late morning sun, muddy ground and a wooden fence. The dog stands on his hind legs briefly with front paws on the rim, drinks noisily, then drops down and shakes, splashing water on the farmer's boots. Sound: loud lapping, water splashing, farmer laughs "thanks a lot, partner".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Walking the fence line

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
