Pulling the Rowboat Rope to Shore

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm lake morning and a little water work: life vest on, wading out to the rope, pulling the empty rowboat backward, the boat landing on the sand and a tug reward.

TIMELINE

0-5s	Life vest on
5-10s	Wading to the rope
10-15s	Pulling backward
15-20s	Boat lands on the sand
20-25s	Shake and tug

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Life vest on): Sandy lake shore, calm morning, soft grey daylight, still water and pine trees across the lake. The owner's hands buckle a plain orange dog life vest with a top handle and no text around the dog's chest. He stands still, staring at a small wooden rowboat floating nearby. Sound: water lapping softly, buckle clicking, a loon calling far away. 5-10s (Wading to the rope): Calm shallow water at the lake edge, morning light, the water only up to the dog's chest. An empty small wooden rowboat floats a few meters out with a thick rope trailing to the shallows. The dog wades out and grabs the floating rope end in his mouth. Sound: splashing, the dog's snort, owner says "get the rope, good". 10-15s (Pulling backward): Same shallow water near the shore, calm grey morning. The dog walks backward slowly toward the sand, gripping the rope, his life vest dripping. The empty rowboat glides smoothly behind him across the flat water, small ripples spreading toward the reeds. Sound: rope creaking, water dripping, owner cheering "pull, pull". 15-20s (Boat lands on the sand): Lake shore, soft morning daylight, wet sand and small pebbles. The dog backs up onto the beach still pulling, and the front of the empty wooden rowboat bumps gently onto the sand. He drops the rope and looks up at the camera, panting. Sound: wood scraping on sand, owner laughs "you did it!", heavy panting. 20-25s (Shake and tug): Sandy beach beside the beached rowboat, morning light. The dog shakes hard, spraying water toward the camera, then grabs a short rope tug the owner holds out and pulls playfully, his orange life vest still on and dripping onto the sand. Sound: water spraying, playful growls, owner laughs "okay, I'm wet now".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Life vest on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Sandy lake shore, calm morning, soft grey daylight, still water and pine trees across the lake. The owner's hands buckle a plain orange dog life vest with a top handle and no text around the dog's chest. He stands still, staring at a small wooden rowboat floating nearby. Sound: water lapping softly, buckle clicking, a loon calling far away.

Clip 2 | 5-10s | Wading to the rope

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Sound: water spraying, playful growls, owner laughs "okay, I'm wet now".

FACEBOOK CAPTION

He insists on bringing the boat in every time we go to the lake.
Yes, he wears his life vest. Safety first, legend second.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
