Night Watch on the Porch

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

His nightly porch watch: settling on the doormat, watching headlights pass, a low woof at a deer crossing the yard, company with a mug of tea and heading inside for the night.

TIMELINE

0-5s	Settling on the doormat
5-10s	Watching headlights
10-15s	Low woof at a deer
15-20s	Company with tea
20-25s	Heading inside

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Settling on the doormat): Front porch at night, ordinary yellow porch light on, wooden boards and a plain doormat, dark yard beyond. The dog walks out the open front door, turns once and lies down on the mat facing the street, head up and ears forward. Sound: crickets, the screen door closing softly, a sigh as he lies down. 5-10s (Watching headlights): Same porch at night, porch light on, a dark quiet street beyond the lawn. Car headlights sweep slowly past on the road. The dog's head follows the car from left to right, calm and silent, then turns back to the dark yard. Sound: car passing slowly, crickets, a dog barking far away. 10-15s (Low woof at a deer): Dark front yard seen from the porch, porch light reaching the lawn edge. A deer steps slowly across the far side of the yard. The dog stands up on the porch, stiffens and gives one low woof, staying on the porch while the deer trots off into the shadows. Sound: one low woof, hooves on grass, crickets going quiet then starting again. 15-20s (Company with tea): Front porch at night, porch light on, a wooden bench beside the door. The owner sits on the bench holding a steaming mug, socked feet visible. The dog lies back down at the owner's feet, leaning against one leg, still watching the street. Sound: mug set on the bench, crickets, owner says quietly "anything else out there?". 20-25s (Heading inside): Front door at night, porch light on, the hallway lamp lit inside the house. The owner stands and opens the door. The dog takes one last look at the dark street, then stands and walks inside past the shoes by the door, tail swaying slowly. Sound: door creaking, paws on wood floor, owner says "good watch, time for bed".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Settling on the doormat

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Front porch at night, ordinary yellow porch light on, wooden boards and a plain doormat, dark yard beyond. The dog walks out the open front door, turns once and lies down on the mat facing the street, head up and ears forward. Sound: crickets, the screen door closing softly, a sigh as he lies down.

Clip 2 | 5-10s | Watching headlights

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. FACEBOOK CAPTION

Every night he does one last round on the porch before bed. Nobody taught him this.
Does your dog have a night shift too?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
