A Legend Is Born

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Back at the breeder's place where it all started: nursing next to his mother, a quick weigh-in, first wobbly steps on the grass, a nose touch with mom and a nap in the puppy pile.

TIMELINE

0-5s	Beside his mother
5-10s	Weigh-in time
10-15s	First steps outside
15-20s	Nose touch with mom
20-25s	Puppy pile nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old male working-line German Shepherd puppy, mostly black fluffy fur with small tan marks on the paws and cheeks, oversized paws and floppy ears, alert curious eyes, wearing a small orange collar. 0-5s (Beside his mother): Quiet whelping room at the breeder's house, soft daylight through a small window, a low wooden whelping box lined with faded blue blankets. The mother dog lies on her side, calm, while three littermates sleep against her belly. The puppy with the small orange collar wriggles closer, pushes his nose into her fur and settles down. Sound: quiet room, tiny puppy squeaks, the mother dog's slow breathing. 5-10s (Weigh-in time): Breeder's kitchen, morning window light, plain white counter. The breeder's hands gently set the puppy on a flat kitchen scale covered with a folded hand towel, the display turned away from the camera. The puppy sits still for a second, blinks, then tries to crawl off toward the hands. Sound: soft kitchen hum, a tiny whine, breeder says "good weight, little man". 10-15s (First steps outside): Small fenced breeder's yard, overcast morning daylight, short green grass with a few dry patches, a wooden fence behind. The puppy takes careful wobbly steps on the grass, stops to sniff a blade, sits down hard on his bottom, then gets up and keeps walking toward the camera. Sound: birds, light breeze, breeder laughing softly. 15-20s (Nose touch with mom): Same breeder's yard, overcast daylight, near a shaded wooden porch step. The mother dog lies calmly on the grass. The puppy toddles up to her, stretches up and touches her nose with his. She gives him one gentle lick on the head and he wobbles from the push. Sound: birds, a soft snuffle from the mother dog, breeder whispers "aww". 20-25s (Puppy pile nap): Back in the whelping room, late afternoon daylight from the small window, faded blue blankets. The puppy climbs over one littermate, curls up in the warm pile beside his mother and closes his eyes. His oversized paw twitches once as he falls asleep. Sound: tiny snores, quiet room, distant kitchen sounds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Beside his mother

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 9-week-old male working-line German Shepherd puppy, mostly black fluffy fur with small tan marks on the paws and cheeks, oversized paws and floppy ears, alert curious eyes, wearing a small orange collar. Quiet whelping room at the breeder's house, soft daylight through a small window, a low wooden whelping box lined with faded blue blankets. The mother dog lies on her side, calm, while three littermates sleep against her belly. The puppy with the small orange collar wriggles closer, pushes his nose into her fur and settles down. Sound: quiet room, tiny puppy squeaks, the mother dog's slow breathing.

Clip 2 | 5-10s | Weigh-in time

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
