The Day He Earned His First Title

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Our first obedience trial: a calm warm-up by the car, heeling past the judge, a long down, a straight recall and the moment the judge nodded and we celebrated.

TIMELINE

0-5s	Quiet warm-up
5-10s	Heeling pattern
10-15s	Long down
15-20s	Straight recall
20-25s	Celebration

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Quiet warm-up): Grass parking area beside a quiet obedience trial field, calm morning, pale overcast daylight, a few parked cars far away. The dog walks in tight circles at the handler's left side, eyes locked on the handler's face, tail low and relaxed. Sound: birds, distant car door, handler breathing out and saying "okay, buddy". 5-10s (Heeling pattern): Quiet obedience trial field, overcast morning light, mowed grass and a low white rope boundary, no signs anywhere. The dog heels off leash at the handler's left knee through a turn, head up, while the judge in a rain jacket follows several steps behind holding a plain clipboard. Sound: quiet field, footsteps on grass, judge's calm voice says "about turn". 10-15s (Long down): Same quiet trial field, overcast daylight, mowed grass. The dog lies in a down on the grass, head up and very still, while the handler stands far across the field with back straight. The judge stands to the side, watching, hands behind back. Sound: wind, a bird calling, total quiet. 15-20s (Straight recall): Trial field, pale morning light. The camera is held from the side by a friend. The handler calls and the dog runs straight across the grass, slows down, and sits neatly in front of the handler's feet, looking up with focused eyes. Sound: handler says "here", paws on grass, quiet clapping from the side. 20-25s (Celebration): Edge of the trial field, overcast morning light. The judge gives a small nod and walks away. The handler drops to one knee and the dog jumps into a hug, then grabs the black tug toy the handler pulls out and shakes it happily. No ribbons, signs or scoreboards visible. Sound: handler laughing and saying "we did it", tug grunts, light clapping.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Quiet warm-up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Grass parking area beside a quiet obedience trial field, calm morning, pale overcast daylight, a few parked cars far away. The dog walks in tight circles at the handler's left side, eyes locked on the handler's face, tail low and relaxed. Sound: birds, distant car door, handler breathing out and saying "okay, buddy".

Clip 2 | 5-10s | Heeling pattern

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
