His Most Loyal Moments

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Five quiet moments that show who he really is: guarding the ladder while I work, waiting for my car, staying close when I hurt my knee, checking back on our dusk walk and sleeping by my door.

TIMELINE

0-5s	Guarding the ladder
5-10s	Waiting for the car
10-15s	Staying close
15-20s	Checking back
20-25s	Sleeping by the door

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Guarding the ladder): Side of a house, sunny afternoon, plain daylight, a metal ladder leaning against the white siding, short grass below. The camera looks down from the ladder at the dog lying at its base, looking up at the owner, ears forward, not moving an inch. Sound: birds, rustling leaves, owner says "I'm fine, buddy". 5-10s (Waiting for the car): Front porch, late afternoon, plain daylight, wooden porch boards and a gravel driveway. Filmed by a family member from the doorway. The dog lies at the top of the steps staring at the empty driveway, then jumps up as a car turns in. Sound: crickets, tires on gravel, tail thumping the porch boards. 10-15s (Staying close): Living room, evening, warm ordinary lamp light, a brown couch. The owner sits with an ice pack on one knee and a leg up on a footstool. The dog lies on the floor pressed against the owner's other foot, chin resting on the shoe, eyes looking up. Sound: quiet TV murmur, a soft sigh, owner says "you're not leaving, huh?". 15-20s (Checking back): Quiet dirt road between fields at dusk, fading blue daylight, tall grass on both sides. The dog walks a few steps ahead off leash, stops, turns his head to look back at the owner, waits until the owner catches up, then continues. Sound: crickets, footsteps on dirt, distant dog barking. 20-25s (Sleeping by the door): Upstairs hallway at night, dim light from a small plug-in night light, wooden floor. The dog lies stretched out across the open bedroom doorway, head up as the camera approaches, then lowers his chin to his paws and closes his eyes. Sound: quiet house, a soft groan, owner whispers "goodnight".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
