Strength and Gentleness

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The same dog, two sides: a powerful tug, pulling an empty wagon in his harness, then taking a treat softly from a child's palm, staying still for grandpa and carrying a toy bunny gently.

TIMELINE

0-5s	Powerful tug
5-10s	Pulling the wagon
10-15s	Treat from a small hand
15-20s	Still for grandpa
20-25s	Carrying the bunny

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Powerful tug): Backyard lawn, bright overcast afternoon daylight, a wooden fence and a garden bed. The dog grips a thick jute tug toy and pulls backward hard, back legs digging into the grass, while the owner's hands hold the other end. On "out" he lets go immediately and sits. Sound: grunting, grass tearing slightly, owner says "out, good". 5-10s (Pulling the wagon): Dirt path along the edge of a field, overcast daylight. The dog wears a padded black harness attached to a small empty wooden garden wagon. He walks forward steadily beside the owner's legs, the wagon wheels bumping along the path behind him. Sound: wagon wheels creaking, footsteps, owner says "nice and steady". 10-15s (Treat from a small hand): Back porch steps, overcast daylight, potted plants. A little girl about seven holds out a flat palm with a small biscuit while her mother kneels beside her. The dog leans in slowly and takes the biscuit with soft lips, barely touching her hand. Sound: girl giggles, mother says "see how gentle he is". 15-20s (Still for grandpa): Garden patio, overcast afternoon daylight, an old man sitting in a green plastic garden chair. The dog sits very still beside the chair while the old man's shaky hand slowly strokes his head and ears. The dog's eyes half close. Sound: birds, grandpa murmuring "good boy, good boy". 20-25s (Carrying the bunny): Living room, afternoon window light, a beige couch. The dog trots in holding a small worn stuffed bunny very softly in his front teeth, walks to the couch and sets it down on the cushion next to a little girl, then wags. Sound: soft footsteps, girl says "thank you", owner laughs.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
