Calm Under Pressure

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Environment training around everyday chaos: walking past roadwork, a down-stay as a bike flies by, crossing a metal grate bridge, a calm vet check and a rattling shopping cart.

TIMELINE

0-5s	Past the roadwork
5-10s	Bike flies by
10-15s	Metal grate bridge
15-20s	Calm vet check
20-25s	Rattling cart

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Past the roadwork): Town sidewalk, weekday morning, flat grey daylight, orange plastic barriers and a small road crew working across the street, no readable signs. The dog heels on a loose leash beside the handler's legs, glances once at the loud noise and keeps walking calmly. Sound: loud jackhammer, traffic, handler says "good, keep going". 5-10s (Bike flies by): Park path, mid morning, plain daylight, trees on both sides. The dog lies in a down on the grass right next to the paved path. A cyclist rides past quickly close by. The dog's ears flick but he stays down, watching the handler. Sound: bike tires whirring, a bell ring, handler whispers "stay". 10-15s (Metal grate bridge): Small footbridge over a stream in a town park, overcast daylight, the walkway made of open metal grating. The dog walks across the grate beside the handler at a steady pace, paws placed normally, not hesitating, water visible below. The handler's hand gives a treat at the far end. Sound: paws clinking on metal, running water, handler says "easy". 15-20s (Calm vet check): Vet exam room, bright ordinary ceiling lights, a steel exam table and pale green walls. The dog stands on the table while the vet's gloved hands lift one ear and look inside. He stands still with soft eyes, tail relaxed. Sound: quiet room hum, vet says "wow, he is so easy". 20-25s (Rattling cart): Store parking lot, afternoon, flat grey daylight, parked cars. The dog sits beside the handler near the car. A shopping cart rattles past loudly as someone pushes it by. The dog watches it go by, then looks back up at the handler for a treat. Sound: loud cart rattle, car doors, handler says "yes, good boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Past the roadwork

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Town sidewalk, weekday morning, flat grey daylight, orange plastic barriers and a small road crew working across the street, no readable signs. The dog heels on a loose leash beside the handler's legs, glances once at the loud noise and keeps walking calmly. Sound: loud jackhammer, traffic, handler says "good, keep going".

Clip 2 | 5-10s | Bike flies by

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. The dog watches it go by, then looks back up at the handler for a treat. Sound: loud cart rattle, car doors, handler says "yes, good boy".

FACEBOOK CAPTION

Noise, bikes, metal floors, the vet - nothing rattles him.
What is the one thing your dog still reacts to?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
