Unbreakable Focus Around Distractions

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Proofing focus with real temptations: leaving a full bowl, ignoring a rolling ball, a squeaky toy behind him, heeling past chickens and a jogger passing by.

TIMELINE

0-5s	Leave the bowl
5-10s	Ignoring a rolling ball
10-15s	Squeaky toy test
15-20s	Past the chickens
20-25s	Jogger passes

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Leave the bowl): Back patio, morning, plain daylight, grey concrete slabs. A steel bowl with kibble sits on the ground a short step in front of the dog. He sits, eyes on the handler, not looking at the bowl at all, until the handler says the release word. Sound: quiet patio, birds, handler says "leave it... okay". 5-10s (Ignoring a rolling ball): Backyard lawn, morning daylight, patchy grass and a wooden fence. The dog is in a down. A family member's hand rolls a tennis ball right past his front paws. His eyes flick to it for a split second, then go straight back to the handler. Sound: ball rolling in grass, family member laughing, handler says "good". 10-15s (Squeaky toy test): Same backyard, morning light. The dog heels in a small circle with the handler. Behind them a teenager squeezes a yellow squeaky toy over and over. The dog's ears twitch but his head stays turned up toward the handler. The teenager stands a few meters behind on the grass. Sound: loud squeaking, footsteps on grass, handler whispers "with me". 15-20s (Past the chickens): Farm yard path, late morning, overcast daylight, a wire fence with a few brown chickens pecking behind it at a distance. The dog walks on a loose leash beside the handler, glances once at the chickens, then looks back up and keeps heeling. Sound: chickens clucking, footsteps on gravel, handler says "nice". 20-25s (Jogger passes): Park path, late morning, plain daylight, trees and a bench. The dog sits at the handler's side on the grass beside the path. A jogger runs past steadily. The dog keeps watching the handler and gets a tug toy the moment the jogger is gone. Sound: jogger footsteps, birds, handler says "yes, get it".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Leave the bowl

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Back patio, morning, plain daylight, grey concrete slabs. A steel bowl with kibble sits on the ground a short step in front of the dog. He sits, eyes on the handler, not looking at the bowl at all, until the handler says the release word. Sound: quiet patio, birds, handler says "leave it... okay".

Clip 2 | 5-10s | Ignoring a rolling ball

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
