Balance Beam Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Body awareness day: a wide plank on the ground, a low beam on short stands, stopping in the middle, a down at the end and a treat and praise.

TIMELINE

0-5s	Wide plank first
5-10s	Up on the beam
10-15s	Careful walk
15-20s	Stop in the middle
20-25s	Down at the end

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Wide plank first): Backyard, sunny morning, plain daylight, short grass and a wooden fence. A wide wooden plank lies flat on the grass. The dog walks along it slowly beside the owner's legs, placing each paw on the wood, then steps off at the end. Sound: paws tapping on wood, birds, owner says "nice and slow". 5-10s (Up on the beam): Same backyard, sunny morning daylight. A low wooden balance beam rests on two short stands only about shin height above the soft grass. The dog steps up onto the beam with his front paws, then his back paws, and stands balanced. Sound: wood creaking slightly, owner says "good, steady". 10-15s (Careful walk): Backyard, sunny daylight, the low beam on soft grass. The dog walks slowly along the narrow beam, head low, concentrating, the owner's hand hovering near his side without touching. His back paws follow exactly where his front paws stepped. The owner's hand gives a treat when he reaches the end. Sound: quiet paws on wood, birds, owner whispering "easy". 15-20s (Stop in the middle): Same backyard, sunny morning light. The owner says a cue and the dog stops right in the middle of the low beam and stands still, all four paws on the wood, ears up, looking at the owner for the next cue. Sound: owner says "stand", a dog sniff, birds. 20-25s (Down at the end): Backyard, sunny daylight, end of the low beam. The dog walks off the end of the beam onto the grass and immediately lies down. The owner's hand gives him a treat and rubs his chest while he wags and licks his lips. Sound: soft thump on grass, owner says "yes, perfect".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Wide plank first

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Backyard, sunny morning, plain daylight, short grass and a wooden fence. A wide wooden plank lies flat on the grass. The dog walks along it slowly beside the owner's legs, placing each paw on the wood, then steps off at the end. Sound: paws tapping on wood, birds, owner says "nice and slow".

Clip 2 | 5-10s | Up on the beam

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
