Working Without a Leash

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Off-leash obedience in our fenced training field: unclipping, off-leash heeling, a down at distance, a send-out across the field and a fast recall before we clip back on.

TIMELINE

0-5s	Unclipping the leash
5-10s	Off-leash heel
10-15s	Down at distance
15-20s	Send-out
20-25s	Fast recall

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Unclipping the leash): Fenced grass training field, morning, mild overcast daylight, tall chain link fence all around and an empty field. The dog sits at the handler's left side. The handler's hand unclips the leash from his orange collar. He stays seated, staring up. Sound: leash clip clicking, birds, handler says "ready?". 5-10s (Off-leash heel): Same fenced field, overcast morning light, mowed grass. The dog heels with no leash through a right turn and a left turn, staying glued to the handler's left knee, head turned up, tail relaxed. The tall chain link fence runs along the empty field behind them. Sound: footsteps on grass, tags jingling, handler says "heel". 10-15s (Down at distance): Fenced training field, overcast daylight. The dog trots away from the handler across the grass. The handler raises one arm and the dog drops into a down instantly and stays there, head up, watching. He stays still in the middle of the empty fenced field, ears forward. Sound: handler calls "down", wind, quiet field. 15-20s (Send-out): Same fenced field, overcast morning daylight. The handler points straight ahead and the dog runs out far across the grass toward the fence in a straight line, then turns and lies down on the second command. The tall chain link fence surrounds the whole empty field. Sound: handler says "go out", fast paws, "down". 20-25s (Fast recall): Fenced training field, overcast daylight. The handler calls and the dog runs back across the whole field at full speed, slides into a sit at the handler's left side, and the handler clips the leash back on and rubs his chest. Sound: handler calls "here", running paws, leash clip, "good boy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Unclipping the leash

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Fenced grass training field, morning, mild overcast daylight, tall chain link fence all around and an empty field. The dog sits at the handler's left side. The handler's hand unclips the leash from his orange collar. He stays seated, staring up. Sound: leash clip clicking, birds, handler says "ready?".

Clip 2 | 5-10s | Off-leash heel

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
