Legends Need Naps Too

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

After a big training day he sleeps everywhere: in the car crate, under the club picnic table, on the cool barn floor, on the porch under the fan and on my feet at night.

TIMELINE

0-5s	Car crate nap
5-10s	Under the picnic table
10-15s	Cool barn floor
15-20s	Porch fan nap
20-25s	On my feet

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Car crate nap): Back of an SUV parked by a training field, midday, plain daylight through the open hatch. The dog lies in a wire crate on a grey mat, completely flat on his side, legs stretched out, still a bit dusty, chest rising slowly. Sound: birds, distant dogs barking at the field, soft snoring. 5-10s (Under the picnic table): Dog club grounds, early afternoon, shade under a wooden picnic table, dry trampled grass. The dog lies curled under the table between the owner's sneakers and a water bottle, eyes closed, ear twitching at a fly. A half empty water bottle stands on the bench above him. Sound: people chatting softly far away, a fly buzzing, a sigh. 10-15s (Cool barn floor): Barn aisle on a farm, mid afternoon, light coming through the open doors, concrete floor and a few hay bales along the wall. The dog lies stretched out on the cool concrete, belly down, chin flat on the floor, fast asleep. Sound: swallows chirping, wind through the barn, a slow snore. 15-20s (Porch fan nap): Covered back porch, late afternoon, warm daylight, a ceiling fan turning slowly overhead and wooden boards. The dog lies on his back with legs folded in the air, fur ruffling from the fan, lips loose, sound asleep. One back paw twitches while he dreams. Sound: fan whirring, crickets starting, owner giggles quietly. 20-25s (On my feet): Bedroom at night, a small bedside lamp giving warm ordinary light, wooden floor and a rug. The camera points down at the owner's socked feet at the edge of the bed. The dog lies across them, head resting on one foot, eyes closed. Sound: quiet house, soft dog snore, owner whispers "goodnight legend".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Car crate nap

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
