His Birthday Trail Run

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

For his birthday we went trail running: starting at the trailhead, running through the pines, a water break, climbing the rocky part and a dog-safe birthday treat on the tailgate.

TIMELINE

0-5s	Trailhead start
5-10s	Running through pines
10-15s	Water break
15-20s	Rocky climb
20-25s	Birthday treat

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Trailhead start): Forest trailhead gravel lot, early morning, cool soft daylight, tall pine trees. The camera points down at the owner's running shoes and the dog standing beside them in a running harness attached to a waist leash, bouncing in place, eager to go. Sound: birds, gravel crunching, owner says "happy birthday, let's go". 5-10s (Running through pines): Narrow dirt trail through a pine forest, morning, soft daylight between the trees, pine needles on the ground. The dog runs a little ahead of the owner on the waist leash, ears up, steady pace, the camera bouncing with the owner's strides. Sound: footsteps thudding, panting, wind in the pines. 10-15s (Water break): Wooden bench beside the trail, morning, dappled light through the pines. The owner's hand holds a collapsible bowl while pouring water from a bottle. The dog drinks quickly, water splashing on the dirt, then looks up dripping. He licks his lips and pants with his tongue out. Sound: water pouring, lapping, both breathing hard. 15-20s (Rocky climb): Rocky uphill section of the trail, morning, open daylight above the trees, grey rocks and roots. The dog climbs the rocks easily with strong steps, stops at the top and looks back down at the owner coming up behind. A few small pine trees grow between the rocks. Sound: paws scraping rock, owner puffing "you are not even tired". 20-25s (Birthday treat): Open tailgate of a car at the trailhead, late morning, plain daylight, pine trees behind. A small homemade dog-safe cake of plain yogurt and banana sits on a paper plate. The dog sits, waits, then gets the release and eats it happily. Sound: birds, owner singing a few words of "happy birthday", licking sounds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Trailhead start

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Forest trailhead gravel lot, early morning, cool soft daylight, tall pine trees. The camera points down at the owner's running shoes and the dog standing beside them in a running harness attached to a waist leash, bouncing in place, eager to go. Sound: birds, gravel crunching, owner says "happy birthday, let's go".

Clip 2 | 5-10s | Running through pines

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
