The Old Legend's Gentle Days

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

At twelve he works a little slower: a slow walk to his old training field, sniffing his old jump, a soft nose touch game, a gentle massage and sleeping with his first tug toy.

TIMELINE

0-5s	Walk to the old field
5-10s	His old jump
10-15s	Nose touch game
15-20s	Gentle massage
20-25s	With his first tug

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 12-year-old male working-line bi-color German Shepherd, almost fully black with tan lower legs, a grey muzzle and grey around the eyes, a little thinner, moving slowly but still alert, wearing a faded orange biothane collar with a small metal tag. 0-5s (Walk to the old field): Gravel path leading to an empty grass training field, mild morning, soft overcast daylight, a chain link fence. The old dog walks slowly beside the owner's legs on a loose leash, head low, ears still up, pausing to sniff the fence post. Sound: slow footsteps on gravel, birds, owner says "remember this place?". 5-10s (His old jump): Same training field, overcast daylight, a weathered low wooden panel hurdle on the grass. The old dog walks up to it slowly, sniffs the wood along the top, tail waving gently, then steps around it rather than over. The fence and the empty field stretch out quietly behind him. Sound: breeze, sniffing, owner says softly "you used to fly over that". 10-15s (Nose touch game): Living room, afternoon, soft daylight from the window, a beige carpet. The owner holds out a flat palm at the dog's nose height. The old dog gets up slowly from his bed, walks two steps and bumps the palm with his grey muzzle for a soft treat. Sound: quiet room, slow footsteps, owner says "still sharp". 15-20s (Gentle massage): Same living room, afternoon daylight, a thick grey orthopedic dog bed. The old dog lies on his side while the owner's hands slowly massage his back legs and hips. His eyes half close and he lets out a long relaxed breath. Sound: soft rubbing, a deep sigh, quiet room. 20-25s (With his first tug): Living room, early evening, warm ordinary lamp light. The old dog sleeps curled on his orthopedic bed with a faded, frayed red tug toy tucked under his chin. The owner's hand rests gently on his side as he breathes. His grey muzzle rests on the frayed rope. Sound: soft snoring, clock ticking, owner whispers "my old legend".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Walk to the old field

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real 12-year-old male working-line bi-color German Shepherd, almost fully black with tan lower legs, a grey muzzle and grey around the eyes, a little thinner, moving slowly but still alert, wearing a faded orange biothane collar with a small metal tag. Gravel path leading to an empty grass training field, mild morning, soft overcast daylight, a chain link fence. The old dog walks slowly beside the owner's legs on a loose leash, head low, ears still up, pausing to sniff the fence post. Sound: slow footsteps on gravel, birds, owner says "remember this place?".

Clip 2 | 5-10s | His old jump

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
