Every German Shepherd Is a Legend

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Video 100 is for every German Shepherd: an ordinary morning stretch, a walk, a bit of training, play in the field and sitting beside me at the end of the day - legends live ordinary lives too.

TIMELINE

0-5s	Morning stretch
5-10s	Ordinary walk
10-15s	A bit of training
15-20s	Play in the field
20-25s	End of the day

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. 0-5s (Morning stretch): Front porch, early morning, cool soft daylight, wooden boards and a pair of boots by the door. The dog stands up from his porch mat, does a long front stretch with his chest low and back end high, then a big yawn. Sound: birds, a squeaky yawn, owner says "morning, legend". 5-10s (Ordinary walk): Quiet neighborhood sidewalk, morning, plain daylight, parked cars and trimmed hedges. The dog walks on a loose leash beside the owner's legs, sniffing a lamp post, then trotting on with his tail swinging. A neighbor's car passes slowly in the street, and the dog glances at it without stopping. Sound: footsteps, distant traffic, tags jingling. 10-15s (A bit of training): Backyard, late morning, overcast daylight, patchy grass and a wooden fence. The dog sits, lies down and stands again on hand signals from the owner, quick and neat, then gets a treat and wags. The owner's hand moves in simple, clear gestures, the dog's eyes following every movement. Sound: birds, owner says "yes" after each one. 15-20s (Play in the field): Empty open meadow, afternoon, breezy plain daylight, long green grass. The dog bounds through the grass after a thrown ball, grabs it and runs a happy loop around the owner instead of bringing it back. The meadow is wide and empty, with a tree line far behind and wildflowers in the grass. Sound: wind, laughing, owner calls "bring it here". 20-25s (End of the day): Top of a grassy hill, late evening, soft orange sky after sunset, the light fading. The owner sits on the grass and the dog sits right beside, leaning in. The owner's hand rests on his back as they both look out over the fields. Sound: crickets, light breeze, owner says quietly "every one of you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Morning stretch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. Front porch, early morning, cool soft daylight, wooden boards and a pair of boots by the door. The dog stands up from his porch mat, does a long front stretch with his chest low and back end high, then a big yawn. Sound: birds, a squeaky yawn, owner says "morning, legend".

Clip 2 | 5-10s | Ordinary walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male working-line bi-color German Shepherd, almost fully black with tan only on the lower legs and small tan marks on the cheeks and above the eyes, short dense coat, lean muscular athletic build, upright ears, intense focused eyes, wearing a worn orange biothane collar with a small metal tag, natural coat with a little dust from the field. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
