# A Day in Her Life

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

One ordinary day at home from morning to night: waiting at the back door, a midday nap in the sun, afternoon rope tug in the yard, dinner in the kitchen and curling up in her bed at night.

## TIMELINE

| | |
|---|---|
| **0-5s** | Back door wait |
| **5-10s** | Midday nap |
| **10-15s** | Rope tug |
| **15-20s** | Dinner time |
| **20-25s** | Bedtime curl up |

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Back door wait): Kitchen by the back door, early morning, pale grey daylight coming through the glass door, beige tile floor with a worn doormat. The dog sits right in front of the door, tail sweeping the tiles, and looks back over her shoulder at the camera, then nudges the door handle area with her nose. Sound: quiet kitchen, tail swishing on tile, a soft whine, owner says "okay, give me a second". 5-10s (Midday nap): Living room, late morning, bright natural daylight through a window making a square of sun on a faded blue rug. The dog lies on her side in the sunny square, eyes closed, ribs rising and falling, one front paw twitching slightly. A sofa and a basket of blankets sit in the background. Sound: soft breathing, a distant car outside, clock ticking. 10-15s (Rope tug): Small backyard, afternoon, overcast daylight, patchy grass and a grey wooden fence. The owner's hand holds one end of a frayed blue and white rope toy, the dog grips the other end, leans back on her hind legs and pulls, shaking her head side to side with a playful growl. Sound: playful growling, rope creaking, owner laughing, birds in the trees. 15-20s (Dinner time): Kitchen, early evening, warm ordinary ceiling light on, beige tiles, a steel bowl on a rubber mat. The owner's hand sets the bowl of kibble down and the dog waits for a second, then dives in, eating fast, nose pushing the bowl a few inches across the mat. Sound: kibble crunching, bowl scraping on the floor, collar tag tapping the bowl. 20-25s (Bedtime curl up): Bedroom corner at night, lit only by a small bedside lamp, a round grey dog bed on carpet. The dog turns two circles in the bed, flops down with a big sigh, tucks her nose under her tail and blinks at the camera before closing her eyes. Sound: bed rustling, a long sigh, owner whispers "goodnight, pretty girl".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

### Clip 1 | 0-5s | Back door wait

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Kitchen by the back door, early morning, pale grey daylight coming through the glass door, beige tile floor with a worn doormat. The dog sits right in front of the door, tail sweeping the tiles, and looks back over her shoulder at the camera, then nudges the door handle area with her nose. Sound: quiet kitchen, tail swishing on tile, a soft whine, owner says "okay, give me a second".

### Clip 2 | 5-10s | Midday nap

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. Sound: bed rustling, a long sigh, owner whispers "goodnight, pretty girl".

#### FACEBOOK CAPTION

Nothing special, just her normal day.
And somehow it is still my favorite thing to watch.

#### HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
