Her Morning Stretch and Yawn

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The slow way she wakes up: a big yawn in her bed, a long stretch on the hallway runner, a full body shake, rolling on the carpet and one last yawn by the back door.

TIMELINE

0-5s	First yawn
5-10s	Long stretch
10-15s	Full body shake
15-20s	Carpet roll
20-25s	Back door yawn

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (First yawn): Bedroom corner, early morning, dim blue-grey light through half-closed blinds, a rumpled brown dog bed on beige carpet. The dog lifts her head from the bed, opens her mouth in a huge yawn with a little squeaky whine at the end, then blinks sleepily at the camera. Sound: a squeaky yawn, quiet room, owner chuckles softly. 5-10s (Long stretch): Narrow hallway, morning, soft daylight from an open bedroom door, a long striped runner rug on wooden floor. The dog walks onto the rug, pushes her front legs far forward with her rear up in a long stretch, then leans forward and stretches her back legs out behind her one at a time. Sound: claws on the rug, a small groan, tag jingling. 10-15s (Full body shake): Kitchen, morning daylight through a window over the sink, white cabinets, beige tile floor with a few dog hairs. The dog stands in the middle of the floor and does a full body shake from her ears to her tail, fur flying a little, her collar tag rattling. Sound: ears flapping, tag rattling, owner says "there she goes". 15-20s (Carpet roll): Living room, morning, natural light from a large window with thin curtains, worn cream carpet, a coffee table with a mug. The dog drops onto her back and wiggles side to side, legs in the air, rubbing her back on the carpet, then flips back onto her belly. Sound: carpet rubbing, happy snorts, a mug set down on the table. 20-25s (Back door yawn): Back door in the kitchen, morning, pale daylight through the glass, a pair of rubber garden shoes on the mat. The dog sits facing the door, lets out one more big yawn, then looks back at the camera and thumps her tail on the tile floor. Sound: yawn, tail thumping, keys jingling as the owner reaches for the door.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | First yawn

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Bedroom corner, early morning, dim blue-grey light through half-closed blinds, a rumpled brown dog bed on beige carpet. The dog lifts her head from the bed, opens her mouth in a huge yawn with a little squeaky whine at the end, then blinks sleepily at the camera. Sound: a squeaky yawn, quiet room, owner chuckles softly.

Clip 2 | 5-10s | Long stretch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Narrow hallway, morning, soft daylight from an open bedroom door, a long striped runner rug on wooden floor. The dog walks onto the rug, pushes her front legs far forward with her rear up in a long stretch, then leans forward and stretches her back legs out behind her one at a time. Sound: claws on the rug, a small groan, tag jingling.

Clip 3 | 10-15s | Full body shake

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
