Lazy Afternoon in the Sun Patch

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A slow afternoon following the sun around the living room: sprawled in the warm patch, rolling on her back, moving when the sun moves, a warm fur check and a sleepy stretch.

TIMELINE

0-5s	Sun sprawl
5-10s	Belly up
10-15s	Follows the sun
15-20s	Warm fur check
20-25s	Sleepy stretch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Sun sprawl): Living room, mid afternoon, bright natural sunlight falling through a window onto light wooden floorboards in a long rectangle. The dog lies flat on her side right inside the sunny rectangle, legs stretched out, eyes half closed, dust floating in the air above her. Sound: quiet house, soft breathing, distant lawn mower. 5-10s (Belly up): Same living room floor, afternoon sunlight on wooden boards, a sofa edge and a pair of sneakers in view. The dog slowly rolls onto her back in the sun, front paws folded over her chest, back legs flopped open, her lips falling loose and her eyes closing. Sound: a soft grunt, floor creak, owner laughs quietly. 10-15s (Follows the sun): Living room, later afternoon, the patch of sunlight has moved closer to the wall onto a beige rug. The dog gets up, walks three steps, sniffs the warm rug, turns once and lies back down exactly inside the new sunny spot with a heavy flop. Sound: claws tapping on wood, a heavy flop, contented sigh. 15-20s (Warm fur check): Close view on the beige rug in afternoon sunlight, the dog's side and shoulder filling much of the frame. The owner's hand rests on her warm fur and rubs gently. The dog keeps her eyes closed and lets out a long sigh, her ear flicking once. Sound: soft rubbing, a long sigh, owner says "you are so warm". 20-25s (Sleepy stretch): Living room, late afternoon, warm natural sunlight fading on the rug, a houseplant in the corner. The dog stretches her front legs out long, spreads her toes, yawns widely, then rests her chin back down on her paws and closes her eyes again. Sound: a yawn, quiet room, birds outside the window.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sun sprawl

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Living room, mid afternoon, bright natural sunlight falling through a window onto light wooden floorboards in a long rectangle. The dog lies flat on her side right inside the sunny rectangle, legs stretched out, eyes half closed, dust floating in the air above her. Sound: quiet house, soft breathing, distant lawn mower.

Clip 2 | 5-10s | Belly up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
