Her Favorite Window Seat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Her spot by the front window: hopping up on the padded bench, watching the street, a head tilt at a passing bike, chin on the sill and leaning on me when I sit down.

TIMELINE

0-5s	Hops up
5-10s	Street watching
10-15s	Head tilt
15-20s	Chin on sill
20-25s	Leans on me

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Hops up): Front room, late morning, soft natural daylight from a wide window with sheer white curtains pulled to the sides, a padded grey bench under the window with two flat cushions. The dog walks over and hops up onto the bench, turns once and sits facing the glass. Sound: bench creaking, tags jingling, cushion rustling. 5-10s (Street watching): View from behind and beside the dog on the window bench, daytime, natural light, the quiet street outside slightly blurry with parked cars and a tree. The dog sits upright, ears forward, head turning slowly to follow something moving down the sidewalk. Sound: muffled street sounds through the glass, a dog's light sniffing. 10-15s (Head tilt): Window bench in the front room, daylight, the street outside out of focus. A person on a bicycle passes by far outside as a soft blur. The dog tilts her head to one side, ears perked, then the other way, and lets out a tiny huff against the glass. Sound: faint bike bell outside, a small huff, owner laughs. 15-20s (Chin on sill): Close view at the window, natural daylight, white painted windowsill with a small potted cactus pushed to the side. The dog lies down on the bench and rests her chin on the windowsill, eyes still looking outside, then lets out a long bored sigh. Sound: a long sigh, distant traffic, ticking clock. 20-25s (Leans on me): Window bench, afternoon, soft natural light, the owner's legs in jeans as they sit down beside the dog on the bench. The dog shifts over and leans her full weight against the owner's side, eyes half closing, while the owner's hand strokes her neck. Sound: bench creak, soft stroking, owner says "room for me?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hops up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Front room, late morning, soft natural daylight from a wide window with sheer white curtains pulled to the sides, a padded grey bench under the window with two flat cushions. The dog walks over and hops up onto the bench, turns once and sits facing the glass. Sound: bench creaking, tags jingling, cushion rustling.

Clip 2 | 5-10s | Street watching

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. FACEBOOK CAPTION

This bench was supposed to be my reading nook.
She disagreed.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
