MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Watching rain): Kitchen by a sliding glass door, grey rainy morning, dull flat daylight, raindrops running down the outside of the glass and puddles on the patio. The dog sits close to the door, nose almost touching the glass, watching the rain with her ears slightly back. Sound: steady rain on the patio, a soft whine, fridge humming. 5-10s (Paw test): Open sliding door, rainy morning, grey daylight, wet concrete patio and a dripping gutter. The door slides open and the dog stretches one front paw out into the rain, touches the wet concrete, then pulls it back inside and looks up at the camera. Sound: rain pouring, door sliding, owner says "it is just water". 10-15s (Towel dry): Small laundry room by the back door, ordinary ceiling light on, grey rainy window, tile floor with a muddy mat. The dog stands with wet fur spiked on her back while the owner's hands rub her with an old striped towel, her eyes squinting happily. Sound: towel rubbing, rain outside, dog shaking her ears. 15-20s (Kitchen chew): Kitchen floor, rainy morning, dim grey window light and the ceiling light on, beige tiles, a water bowl nearby. The dog lies on her belly holding a knotted rope toy between her front paws, chewing on the knot and tugging at loose threads. Sound: chewing, rope fibers pulling, rain tapping the window. 20-25s (Blanket nap): Living room sofa, grey rainy late morning, a lamp switched on beside the sofa, a soft plaid blanket. The dog lies curled on the sofa cushion with the blanket over her back and only her head poking out, eyes heavy, chin resting on the armrest. Sound: rain on the roof, soft snoring begins, owner whispers "cozy".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
