Waiting by the Fridge

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Her fridge vigil: sitting and staring at the door, following the opening door with her nose, a carrot reward, lying down to keep watch, and sprinting back from the sofa at the sound of it.

TIMELINE

0-5s	The stare
5-10s	Door opens
10-15s	Carrot reward
15-20s	Keeps watch
20-25s	Comes running

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (The stare): Kitchen, early evening, ordinary ceiling light on, white fridge with a few magnets, beige tile floor. The dog sits squarely in front of the fridge, staring at the door handle without blinking, her tail slowly sweeping across the tiles behind her. Sound: fridge humming, tail swishing, owner laughs "really?". 5-10s (Door opens): Kitchen, evening light from the ceiling and the fridge light spilling onto the floor. The owner's hand opens the fridge door and the dog stands up, stretches her neck forward and sniffs the cold air coming out, her nose twitching fast. Sound: fridge door suction pop, fast sniffing, glass jars clinking. 10-15s (Carrot reward): Kitchen by the open fridge, evening ceiling light, beige tiles. The owner's hand holds out a whole baby carrot low. The dog takes it gently, lies down right on the tiles in front of the fridge and crunches it loudly, crumbs of carrot falling around her paws. Sound: loud crunching, owner says "gentle", fridge door closing. 15-20s (Keeps watch): Kitchen, evening, ordinary ceiling light, fridge closed. The dog lies on her belly directly in front of the fridge, chin on her paws, eyes moving between the fridge door and the camera, eyebrows shifting as she waits for another chance. Sound: fridge humming, a long sigh through the nose. 20-25s (Comes running): Living room later in the evening, lamp light, sofa and a blanket. The dog is lying on a rug when the sound of the fridge opening comes from the kitchen. Her head pops up, ears high, and she jumps up and trots out of frame toward the kitchen. Sound: faint fridge pop in the distance, tags jingling, claws scrambling on the floor.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | The stare

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Kitchen, early evening, ordinary ceiling light on, white fridge with a few magnets, beige tile floor. The dog sits squarely in front of the fridge, staring at the door handle without blinking, her tail slowly sweeping across the tiles behind her. Sound: fridge humming, tail swishing, owner laughs "really?".

Clip 2 | 5-10s | Door opens

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
