# Helping Fold the Laundry

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

### VIDEO IDEA

Folding laundry with her help: sniffing the fresh basket, lying on the warm towels, blinking at a shaken towel, settling on the folded pile and finally carrying a hand towel down the hall.

### MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Basket sniff): Bedroom, late morning, natural daylight from a window, a plastic laundry basket full of towels on a made bed with a white cover. The dog stands beside the bed with her front paws on the floor, pushing her nose into the edge of the basket and sniffing the warm laundry. Sound: sniffing, fabric rustling, dryer buzzing faintly in another room. 5-10s (Towel bed): Same bedroom, daylight, a pile of warm towels dumped on the bed. The dog climbs onto the bed and lies down right on top of the towel pile, settling her chin on the softest one and looking at the camera without any guilt. Sound: bed creaking, owner sighs "seriously?", a soft dog grunt. 10-15s (Towel shake): Bedroom, daylight from the window, the owner's arms shaking out a large blue bath towel above the bed. The dog, lying on the bed, blinks as the air from the towel hits her face, her ears flatten for a second and then pop back up. Sound: towel snapping, owner laughing, a small sneeze from the dog. 15-20s (Folded pile): Bedroom, soft natural daylight, a neat stack of folded towels at the edge of the bed. The dog shifts over and lays her head right on top of the folded stack, pressing it flat, and lets out a deep satisfied sigh. Sound: a deep sigh, fabric crunching, owner says "I just folded those". 20-25s (Hall delivery): Upstairs hallway, daylight from a small window, wooden floor and an open bathroom door. The dog trots down the hallway holding a small grey hand towel loosely in her mouth, tail high, and drops it on the floor in front of the bathroom. Sound: claws clicking on wood, tags jingling, owner laughing "thank you".

### AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

## FACEBOOK CAPTION

Laundry takes twice as long with my assistant.
But honestly I would not trade her for anything.

## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
