Toy Basket Inspection

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Her daily toy basket audit: nose deep in the wicker basket, pulling out a rope, digging for the stuffed duck, tipping the whole thing over and lying in the mess she made.

TIMELINE

0-5s	Nose in basket
5-10s	Rope pulled out
10-15s	Digging deeper
15-20s	Basket tips
20-25s	Lies in the mess

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Nose in basket): Corner of the living room, morning, natural daylight from a nearby window, a round wicker basket full of dog toys on a wooden floor. The dog walks up and pushes her whole head into the basket, her tail wagging as she sniffs through the toys. Sound: toys rustling, a muffled squeak, tail tapping a chair leg. 5-10s (Rope pulled out): Same living room corner, morning daylight, the wicker basket beside a bookshelf. The dog lifts her head out holding a knotted green rope toy, gives it one shake, then drops it on the floor beside the basket and dives back in. Sound: rope thudding on the floor, sniffing, owner says "not that one?". 10-15s (Digging deeper): Living room corner, morning daylight, wooden floor. The dog paws gently at the edge of the basket and pushes her nose down to the bottom, then pulls out a flattened stuffed yellow duck by one wing and holds it up proudly. Sound: toys shifting, a weak squeak from the duck, happy snort. 15-20s (Basket tips): Living room, morning natural light, the wicker basket on the wooden floor. The dog leans her chest against the basket while reaching in again and it tips over onto its side, spilling balls and rope toys across the floor. She jumps back a step, surprised. Sound: basket thumping over, balls rolling on wood, owner laughing. 20-25s (Lies in the mess): Living room floor, morning daylight, toys scattered all around the tipped basket. The dog lies down in the middle of the toys with the yellow duck between her paws and looks up at the camera, tail thumping on the floor. Sound: tail thumping, a ball rolling to a stop, owner says "you are cleaning this up".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Nose in basket

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
