Choosing Which Toy to Bring

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

I tell her to grab one toy for the yard and she takes it very seriously: running to the basket, trying the ball, trying the rope, finally choosing the squeaky hedgehog and playing with it outside.

TIMELINE

0-5s	Go get a toy
5-10s	Ball first
10-15s	Then the rope
15-20s	The winner
20-25s	Yard play

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Go get a toy): Hallway by the back door, afternoon, natural daylight through a small window, shoes lined up on a mat. The owner's hand points down the hall and the dog spins around with ears up and trots off toward the living room, tail wagging high. Sound: owner says "go get a toy", claws scrambling, tags jingling. 5-10s (Ball first): Living room, afternoon daylight from the window, a fabric toy bin on a wooden floor. The dog pulls out a worn orange rubber ball, holds it for a second, then drops it on the floor and looks back into the bin. Sound: ball bouncing on wood, sniffing, owner chuckles. 10-15s (Then the rope): Same living room, afternoon natural light, the orange ball rolling away in the background. The dog takes a thick red rope toy out of the bin, carries it two steps toward the hallway, stops, and drops it again with a small huff. Sound: rope dropping, a huff, owner says "still deciding?". 15-20s (The winner): Living room, afternoon daylight, toys scattered beside the bin. The dog picks up a small brown plush hedgehog, squeaks it twice, and trots straight back toward the camera in the hallway with her head high and the toy in her mouth. Sound: squeak squeak, quick trotting paws, owner laughing "good choice". 20-25s (Yard play): Backyard, afternoon, overcast daylight, patchy grass and a chain link fence with a neighbor's shed behind it. The dog runs a happy loop on the grass with the plush hedgehog, drops it, pounces on it with both front paws and squeaks it again. Sound: squeaking, paws thudding on grass, birds, owner laughs.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Go get a toy

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Hallway by the back door, afternoon, natural daylight through a small window, shoes lined up on a mat. The owner's hand points down the hall and the dog spins around with ears up and trots off toward the living room, tail wagging high. Sound: owner says "go get a toy", claws scrambling, tags jingling.

Clip 2 | 5-10s | Ball first

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
