Sleepy Head on My Lap

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A quiet evening on the sofa: she rests her head on my lap, falls asleep to head strokes, climbs halfway up, twitches in a dream and gives me a look when I try to get up.

TIMELINE

0-5s	Head on lap
5-10s	Head strokes
10-15s	Half on sofa
15-20s	Dream twitch
20-25s	Don't move

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Head on lap): Living room in the evening, warm light from a floor lamp, a grey fabric sofa, the owner's legs in pajama pants. The dog walks up from the side and rests her chin right on the owner's thigh, looking up with soft eyes. Sound: TV murmuring in the background, a soft sigh, owner says "hi, sweetheart". 5-10s (Head strokes): Close view on the sofa, evening lamp light, the dog's head resting on the owner's lap. The owner's hand slowly strokes from her forehead down her neck. Her eyelids droop and her ears relax backward with each stroke. Her breathing slows and her body grows heavier. Sound: soft stroking, slow breathing, TV murmuring. 10-15s (Half on sofa): Living room, evening, warm floor lamp light, grey sofa with a crumpled throw pillow. The dog climbs her front half up onto the sofa cushion while her back legs stay on the floor, settling her whole head and chest across the owner's lap. Sound: sofa creaking, a grunt, owner laughs "okay, big girl". 15-20s (Dream twitch): Close view on the owner's lap, evening lamp light, the dog fast asleep. Her eyebrows twitch, her lips puff out with a small breath, and one front paw paddles slightly against the cushion as she dreams. The owner's hand rests still on her shoulder so she does not wake. Sound: tiny muffled woofs, soft breathing, owner whispers "what are you chasing?". 20-25s (Don't move): Living room, evening, floor lamp light, the owner shifting as if to stand up. The dog lifts her head from the lap, looks straight at the camera with sleepy eyes, then puts her head back down even heavier than before. Sound: owner laughing "I guess I am not going anywhere", a long sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Head on lap

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Living room in the evening, warm light from a floor lamp, a grey fabric sofa, the owner's legs in pajama pants. The dog walks up from the side and rests her chin right on the owner's thigh, looking up with soft eyes. Sound: TV murmuring in the background, a soft sigh, owner says "hi, sweetheart".

Clip 2 | 5-10s | Head strokes

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
