Supervising Me While I Cook

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Cooking dinner under her watch: sitting and staring while I chop carrots, catching a dropped piece, blocking the doorway, sniffing the steam and getting a cucumber slice as payment.

TIMELINE

0-5s	Watching closely
5-10s	Dropped carrot
10-15s	Doorway block
15-20s	Steam sniff
20-25s	Cucumber payment

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Watching closely): Kitchen in the evening, ordinary ceiling lights on, a wooden cutting board on a white counter with carrots, beige tile floor. The dog sits right beside the owner's feet, head tilted up, eyes locked on the knife moving on the board. Sound: knife chopping, a pot bubbling, owner says "I see you". 5-10s (Dropped carrot): Kitchen floor, evening ceiling light, beige tiles. A small round carrot slice falls from the counter and bounces once. The dog snaps it up instantly, crunches it and immediately looks back up at the counter for more. Her tail swishes once across the tiles while she waits. Sound: carrot hitting the tile, crunch, owner laughing "five second rule". 10-15s (Doorway block): Kitchen doorway, evening, warm ceiling light, the dog lying stretched across the doorway on the tile. The owner's feet in socks carefully step over her. She does not move, only rolls her eyes up to watch. A dish towel hangs from the oven handle behind her. Sound: owner says "excuse me, ma'am", pots clinking, a lazy tail thump. 15-20s (Steam sniff): Kitchen by the stove, evening ceiling light, a pot with lid steaming on the burner out of reach. The dog stands a few feet back from the stove, nose lifted high, nostrils working as she sniffs the cooking smell in the air. Sound: pot bubbling, fast sniffing, extractor fan humming. 20-25s (Cucumber payment): Kitchen, evening ceiling light, the owner crouching on the beige tiles. The owner's hand offers a thin cucumber slice. The dog sits on cue, takes it gently, and chews with her head tilted, a bit of cucumber falling to the floor. Sound: owner says "sit, good girl", crunching, tail swishing on tile.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
