MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Porch sniff): Front porch, late morning, overcast daylight, three brown paper grocery bags sitting on a worn coir doormat. The front door opens and the dog steps out, sniffs every bag from top to bottom, tail wagging slowly. A delivery van drives away slowly in the background, blurry. Sound: door opening, paper rustling, fast sniffing, a car passing on the street. 5-10s (Follows the bags): Entry hallway, daylight from the open front door, wooden floor with shoes against the wall. The owner's arms carry two paper bags inside while the dog walks right beside the owner's legs, nose pressed to the bottom of a bag. Sound: paper bags crinkling, claws on wood, owner laughs "you are in the way". 10-15s (Nose in bag): Kitchen, late morning, natural daylight from a window, paper bags set on the tile floor by the counter. The dog pushes her nose deep into one open bag that holds a loaf of bread and a bag of apples, sniffing loudly. Sound: paper crinkling, loud sniffing, owner says "hey, nosy". 15-20s (Box check): Kitchen floor, daylight, a plain empty cardboard delivery box with the flaps open. The dog sniffs every side of the box, then puts her front paw on the edge, tips it toward her and pokes her head inside. Her tail sticks out of the box, wagging slowly. Sound: cardboard scraping on tile, muffled sniffing, owner laughing. 20-25s (Banana reward): Kitchen, late morning daylight, groceries now on the counter. The owner's hand holds out a small slice of peeled banana. The dog sits, takes it carefully and smacks her lips while looking up for another piece. A paper bag still sits folded on the tile floor nearby. Sound: lip smacking, owner says "inspection fee paid", fridge door closing.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
