Saying Hi to the Neighbor's Dog Through the Fence

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Her daily fence chat with the neighbor's chocolate Lab: running to the fence, sniffing noses through the gap, a play bow, racing side by side along the boards and lying down content.

TIMELINE

0-5s	Runs to fence
5-10s	Nose to nose
10-15s	Play bow
15-20s	Fence race
20-25s	Content rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Runs to fence): Backyard, afternoon, overcast daylight, patchy grass and a tall wooden fence with narrow gaps between the boards. The dog hears something, lifts her head, and trots quickly across the grass straight to the fence, tail wagging in big circles. Her ears point forward at the boards as she arrives. Sound: a friendly bark from next door, paws thudding on grass, tags jingling. 5-10s (Nose to nose): Close at the wooden fence, afternoon overcast light, a wide gap between two boards. A brown nose of the neighbor's chocolate Labrador pokes through the gap from the other side. The dog lowers her head and sniffs it gently, tail wagging fast. Sound: snuffling from both dogs, a soft whine, owner says "hi, buddy". 10-15s (Play bow): Backyard by the fence, overcast daylight, grass worn down to dirt along the boards. The dog drops into a play bow facing the fence, front legs flat and rear up, then springs back up and gives one happy bark at the gap. Sound: one high bark, answering bark from next door, owner laughing. 15-20s (Fence race): Backyard, afternoon, overcast light, the long wooden fence line. The dog runs along the inside of the fence while flashes of the brown Lab are visible through the gaps running on the other side, both turning around at the corner. Sound: paws pounding grass, panting, a neighbor laughing behind the fence. 20-25s (Content rest): Backyard near the fence, afternoon overcast daylight, worn dirt strip along the boards. The dog lies down with her side close to the fence, panting happily, her nose turned toward the gap where the Lab is also lying down on the other side. Sound: both dogs panting, birds, distant wind chime.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Runs to fence

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Backyard, afternoon, overcast daylight, patchy grass and a tall wooden fence with narrow gaps between the boards. The dog hears something, lifts her head, and trots quickly across the grass straight to the fence, tail wagging in big circles. Her ears point forward at the boards as she arrives. Sound: a friendly bark from next door, paws thudding on grass, tags jingling.

Clip 2 | 5-10s | Nose to nose

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
