Playing Keep Away

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

She has the rope toy and she knows I want it: dodging my hand, a victory lap of the yard, a play bow with the toy, running when I pretend to chase and finally giving it up.

TIMELINE

0-5s	The dodge
5-10s	Victory lap
10-15s	Toy bow
15-20s	Fake chase
20-25s	Gives it up

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (The dodge): Backyard, afternoon, bright overcast daylight, short green grass with a few bare spots and a wooden fence. The dog stands holding a red rope toy. The owner's hand reaches for it and she jumps sideways just out of reach, eyes bright. Sound: owner says "give it", a playful huff, birds. 5-10s (Victory lap): Backyard, afternoon overcast light, the camera following from the middle of the lawn. The dog runs a fast loop around the yard with the rope toy flapping from her mouth, ears back, tucking her rear as she corners. The neighbor's tree branches hang over the fence behind her. Sound: paws thudding on grass, owner laughing, panting. 10-15s (Toy bow): Backyard, overcast daylight, the dog stopped a few steps in front of the camera on the grass. She drops into a play bow with the rope toy still in her mouth, tail wagging high, then bounces backward when the owner steps forward. Sound: playful growl through the toy, owner says "come here". 15-20s (Fake chase): Backyard, afternoon overcast light, the owner's sneakers stepping quickly on the grass as if chasing. The dog spins and runs away toward the fence, looks back over her shoulder, then circles around behind the owner. Her tail is high and wagging the whole time. Sound: owner's footsteps, laughing, the dog's excited snort. 20-25s (Gives it up): Backyard by the back steps, afternoon overcast daylight, the dog panting hard. She walks up and drops the wet rope toy at the owner's feet on the grass, then flops down beside it, tongue hanging out. Her chest heaves and her tongue drips onto the grass. Sound: heavy panting, rope thudding on grass, owner says "finally".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
