Bringing Me Her Ball Over and Over

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

I sat down for five minutes and she had other plans: the ball dropped on my shoe, a short toss, nudging it closer, dropping it in my lap and the hopeful stare.

TIMELINE

0-5s	Ball on shoe
5-10s	Short toss
10-15s	Nudge closer
15-20s	Lap drop
20-25s	Hopeful stare

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Ball on shoe): Back patio, late afternoon, warm natural sunlight, a plastic patio chair and the owner's sneakers on grey paving stones. The dog walks up and drops a slobbery yellow tennis ball right on top of the owner's shoe, then backs up and stares at it. Sound: ball thudding on the shoe, panting, owner laughs "already?". 5-10s (Short toss): Backyard beside the patio, late afternoon sunlight, uneven grass and a wooden fence. The owner's hand tosses the ball a short distance across the lawn. The dog bounds after it, scoops it up and trots straight back. She drops it on the stones and backs up, ready again. Sound: ball bouncing on grass, paws thudding, birds. 10-15s (Nudge closer): Back patio, late afternoon warm light, the ball on the stones near the chair. The owner ignores it for a moment. The dog pushes the ball closer to the owner's foot with her nose, then looks up at the camera and back at the ball. Sound: ball rolling on stone, a small whine, owner says "one more minute". 15-20s (Lap drop): Back patio, late afternoon sunlight, the owner sitting in the chair in shorts. The dog puts her front paws on the edge of the chair seat and drops the wet ball right into the owner's lap, then hops back down. Sound: owner groaning and laughing "ew, okay", panting. 20-25s (Hopeful stare): Back patio, late afternoon, warm natural light, the dog sitting on the paving stones a few feet away. She stares at the ball in the owner's hand with total focus, body frozen, front feet shifting slightly, ears pricked forward. A drop of drool falls from her lips onto the stone. Sound: quiet, birds, owner says "ready?", tail swishing on stone.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
