Ear Scratch Happiness

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Pure happiness from a good ear scratch: leaning into my hand, eyes squinting, nudging me when I stop, switching ears and a big head shake when she is done.

TIMELINE

0-5s	Leans in
5-10s	Eyes squint
10-15s	Hand nudge
15-20s	Other ear
20-25s	Head shake

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Leans in): Living room in the evening, warm lamp light, a blue sofa and the owner's knees in grey joggers. The dog sits on the rug in front of the sofa. The owner's hand scratches behind her left ear and she leans her whole head into it. Sound: soft scratching, a low happy groan, TV murmuring. 5-10s (Eyes squint): Close view, evening lamp light, the dog's face beside the sofa. As the owner's fingers rub the base of her ear, her eyes squint almost shut, her head tilts further and her mouth falls slightly open. Her collar tag rests against the owner's wrist. Sound: scratching, a deep contented sigh, owner says "right there?". 10-15s (Hand nudge): Living room, evening, warm lamp light on the beige rug. The owner's hand stops and lifts away. The dog opens her eyes and pushes her nose under the hand, flipping it back onto her head with a quick nudge. Then she settles in again with her ears relaxed. Sound: owner laughing "okay, okay", a small huff. 15-20s (Other ear): Close by the sofa, evening lamp light. The dog turns her head and offers her right ear to the owner's hand. The owner scratches it and her back leg lifts off the rug and shakes a little in the air. Sound: scratching, back paw tapping the rug, owner laughs. 20-25s (Head shake): Living room, evening, warm lamp light. The owner's hand pulls back and the dog gives a big head shake, ears flapping and collar tag rattling, then lies down on the rug at the owner's feet with a happy sigh. She rests her chin on the owner's foot and blinks slowly. Sound: ears flapping, tag rattling, a long sigh, TV murmuring.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Leans in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Living room in the evening, warm lamp light, a blue sofa and the owner's knees in grey joggers. The dog sits on the rug in front of the sofa. The owner's hand scratches behind her left ear and she leans her whole head into it. Sound: soft scratching, a low happy groan, TV murmuring.

Clip 2 | 5-10s | Eyes squint

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
