Sunrise Walk on the Farm Road

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An early walk down a quiet gravel farm road: heading out the gate, sniffing the verge, a fence post check, a short trot ahead and a sit to watch the fields wake up.

TIMELINE

0-5s	Out the gate
5-10s	Sniffing the verge
10-15s	Fence post check
15-20s	Trots ahead
20-25s	Sits and watches

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Out the gate): Edge of a small farmyard at sunrise, pale pink and grey sky, soft early daylight. A rusty metal farm gate swings open in front of the camera and the dog walks through on a long brown leash, nose already down, tail wagging low. Gravel road ahead, wet grass on both sides, a muddy rubber boot visible at the bottom of frame. Sound: gate hinge creaking, gravel crunching, a rooster in the distance. 5-10s (Sniffing the verge): Gravel farm road, early morning daylight with a light mist over the fields. The dog stops at the grassy verge and pushes her nose deep into the dewy weeds, sniffing in short quick bursts, then lifts her head with wet drops on her muzzle and looks back at the camera before moving on. Sound: quick sniffing, birds, owner says "find something good?". 10-15s (Fence post check): Same farm road, a row of weathered wooden fence posts with barbed wire behind them, soft morning light. The dog walks along the posts, pausing at each one to sniff the base for a second, ears forward, then trots to the next post while the loose leash swings beside her. Sound: paws on gravel, distant cows mooing, leash clip jingling. 15-20s (Trots ahead): Long straight gravel road between flat green fields, sunrise light low and pale behind thin clouds. The dog trots a few steps ahead of the owner on the leash, her tail high and relaxed, ears bouncing slightly with each step, a puddle in a tractor rut beside her. The camera bobs with the owner's walking. Sound: steady footsteps, gravel crunching, light wind. 20-25s (Sits and watches): Wide spot on the farm road beside an open field, early morning daylight, thin mist sitting over the grass. The dog sits down on her own beside the owner's muddy boots and stares out across the field, ears turning toward a faraway sound, breathing calmly, the leash slack on the gravel. Sound: quiet field, distant tractor engine, owner says "pretty, huh?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Out the gate

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Edge of a small farmyard at sunrise, pale pink and grey sky, soft early daylight. A rusty metal farm gate swings open in front of the camera and the dog walks through on a long brown leash, nose already down, tail wagging low. Gravel road ahead, wet grass on both sides, a muddy rubber boot visible at the bottom of frame. Sound: gate hinge creaking, gravel crunching, a rooster in the distance.

Clip 2 | 5-10s | Sniffing the verge

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
