Exploring a New Park

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

First visit to a park she has never been to: hopping out of the car, sniffing a new bench, checking out the path, a curious look at the duck pond and a lie-down under a tree.

TIMELINE

0-5s	Hops out
5-10s	Bench inspection
10-15s	Path explorer
15-20s	Duck pond look
20-25s	Rest under tree

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Hops out): Small gravel parking area at the edge of a park, bright overcast midday light. The back door of a car opens and the dog hops down onto the gravel on a short leash, immediately lifting her nose to the air and looking around at the trees and grass with her ears straight up. Sound: car door, gravel, birds, owner says "new place, look at that". 5-10s (Bench inspection): Paved park path, overcast daylight, an old green wooden bench with peeling paint. The dog walks up to the bench and sniffs slowly along its legs and the patch of worn dirt underneath, tail wagging gently, then sneezes once and shakes her head before stepping back onto the path. Sound: sniffing, a small sneeze, distant kids playing. 10-15s (Path explorer): Winding asphalt path through a city park, cloudy daylight, short trimmed grass and young trees on both sides. The dog walks ahead on the leash with a bouncy, curious step, turning her head left and right at every new smell and sound, stopping briefly to look at a jogger passing far away. Sound: footsteps on asphalt, birds, distant traffic. 15-20s (Duck pond look): Edge of a small park pond with a low stone border, grey overcast sky, a few ducks floating far out on the water. The dog stands at the border on a short leash, ears pricked, head tilted, watching the ducks very closely, her tail slowly swaying while the owner holds her back. Sound: ducks quacking, water lapping, owner says "leave them, just looking". 20-25s (Rest under tree): Grass under a big leafy tree in the park, soft shade, overcast daylight around it. The dog lies down on the cool grass beside the owner's sneakers, stretches her front legs out, pants with her tongue out and keeps looking around at everything with bright, interested eyes. Sound: leaves rustling, panting, a bike bell far away.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Hops out

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Small gravel parking area at the edge of a park, bright overcast midday light. The back door of a car opens and the dog hops down onto the gravel on a short leash, immediately lifting her nose to the air and looking around at the trees and grass with her ears straight up. Sound: car door, gravel, birds, owner says "new place, look at that".

Clip 2 | 5-10s | Bench inspection

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
