Walking Through Tall Grass

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A summer afternoon in an unmown meadow: wading in, disappearing in the grass, the pop-up head check, a little hop and a seed-covered return.

TIMELINE

0-5s	Wading in
5-10s	Disappearing act
10-15s	Head pops up
15-20s	Little hop
20-25s	Seedy return

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Wading in): Edge of an unmown meadow on a warm afternoon, bright sunny daylight, waist-high green and yellow grass. The dog steps off a dirt track and wades into the tall grass, which brushes against her chest and sides, her tail sticking up above the stems as she pushes forward. Sound: grass swishing, crickets, owner laughs. 5-10s (Disappearing act): Middle of the tall grass meadow, sunny afternoon light, seed heads swaying in a light breeze. Only the dog's back and the tips of her ears are visible as she moves through the grass, the stems parting and closing behind her, her tail flicking up now and then. Sound: rustling grass, insects buzzing, owner says "where did you go?". 10-15s (Head pops up): Tall grass meadow, bright afternoon daylight, a line of trees far behind. The dog stops and lifts her head high above the grass, ears fully up, looking straight toward the camera with her mouth slightly open, then lowers her nose back into the grass to keep sniffing. Sound: crickets, light wind, owner whistles once. 15-20s (Little hop): Same sunny meadow, grass waving in the breeze. The dog freezes, staring at something in the grass, then does one small springy hop forward with her front paws coming down together, nose pushing into the stems to investigate, tail wagging fast. Sound: rustle and thump in the grass, insects, owner chuckles. 20-25s (Seedy return): Dirt track at the edge of the meadow, afternoon sunlight. The dog trots out of the tall grass toward the camera, her coat dotted with grass seeds and a few small burrs on her chest, panting happily. She stops at the owner's legs and gives a full body shake. Sound: paws on dirt, shaking collar tag, owner says "look at you, seed monster".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Wading in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. FACEBOOK CAPTION

Ten minutes in the meadow, forty minutes picking seeds out of her fur.
Worth it?

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
