Wading in the Creek

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A hot afternoon cool-off in a shallow creek: testing the water, wading in, splashing at ripples, drinking from the current and shaking off on the bank.

TIMELINE

0-5s	Testing the water
5-10s	Wading in
10-15s	Splashing ripples
15-20s	Drinking
20-25s	Shake on the bank

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Testing the water): Pebbly bank of a shallow creek, warm sunny afternoon, dappled light through trees. The dog walks to the water's edge and dips one front paw in, then the other, sniffing the surface of the clear water while it flows gently around her toes. Sound: creek babbling, birds, owner says "is it cold?". 5-10s (Wading in): Shallow rocky creek, ankle to knee deep, sunlight and shade from overhanging branches. The dog wades slowly out until the water reaches her elbows, her legs darkened and wet, standing still and letting the cool current flow past her, tail relaxed. Sound: water flowing, splashing steps, happy panting. 10-15s (Splashing ripples): Middle of the shallow creek, bright afternoon light with patches of shade. The dog stares at the ripples, then slaps the water with one front paw and pushes her nose in, making splashes, then stomps again, water spraying around her chest. Sound: splashing, owner laughing, creek running. 15-20s (Drinking): Calm part of the creek near a flat rock, dappled sunlight. The dog lowers her head and laps at the clear moving water, water dripping off her chin and mask, pausing to lift her head and look upstream with her ears pricked before drinking again. Sound: loud lapping, water trickling, birds. 20-25s (Shake on the bank): Pebbly creek bank, sunny afternoon, an old towel lying on a rock. The dog walks out of the water toward the camera, stops right beside the owner and shakes hard, water spraying in all directions and droplets hitting the camera, then pants happily. Sound: big shake, owner shouting "no, not on me" and laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
