Rolling in Fresh Snow

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The first fresh snow of winter: stepping out, face plant sniff, a full body roll, kicking her legs in the air and a snowy shake.

TIMELINE

0-5s	First steps
5-10s	Face plant sniff
10-15s	Full body roll
15-20s	Legs in the air
20-25s	Snowy shake

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (First steps): Back door of a house opening onto a snowy yard, flat white winter morning light, fresh untouched snow about ankle deep, snow on the fence rails. The dog steps out onto the porch step, pauses, sniffs the snow, then walks out leaving fresh paw prints. Sound: door creak, crunching snow, owner says "it snowed". 5-10s (Face plant sniff): Middle of the snowy backyard, grey overcast winter daylight, snow still falling lightly. The dog pushes her whole muzzle deep into the fresh snow, snorting, then lifts her head with snow covering her nose and whiskers, blinking and wagging her tail. Sound: snorting, soft snowfall, owner giggles. 10-15s (Full body roll): Snowy backyard, flat winter daylight, wooden fence and bare bushes in the back. The dog drops down onto her shoulder and rolls onto her back in the fresh snow, rubbing her back side to side, snow sticking all over her black and tan coat. Sound: snow crunching, happy grunts, owner says "oh she loves it". 15-20s (Legs in the air): Same snowy yard, overcast daylight, small snowflakes falling. The dog lies on her back with all four legs kicking and wiggling in the air, mouth open, rubbing her head in the snow, then flips back onto her belly with a snowy face. Sound: wiggling snow sounds, grunting, owner laughing. 20-25s (Snowy shake): Snowy backyard near the back steps, grey winter light. The dog stands up and shakes from head to tail, snow flying off her coat in a puff, then trots toward the camera with snow still clinging to her ears and back. Sound: shaking, collar tag jingle, crunchy footsteps.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | First steps

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Back door of a house opening onto a snowy yard, flat white winter morning light, fresh untouched snow about ankle deep, snow on the fence rails. The dog steps out onto the porch step, pauses, sniffs the snow, then walks out leaving fresh paw prints. Sound: door creak, crunching snow, owner says "it snowed".

Clip 2 | 5-10s | Face plant sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
