20-25s	Sits by gate

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Petal sidewalk): Quiet residential street in spring, mild cloudy daylight, cherry trees in pink bloom along the sidewalk, petals scattered on the concrete. The dog walks on a loose leash through the fallen petals, sniffing the ground and leaving tiny disturbed trails behind her. Sound: birds singing, footsteps, a car passing slowly. 5-10s (Branch sniff): Same blossom-lined sidewalk, soft spring daylight. A low branch full of pink flowers hangs over a garden wall. The dog stretches her neck up and sniffs the blossoms carefully, her nose twitching and her ears tilted forward, then sneezes once and steps back onto the petals, shaking her head. Sound: soft sniffing, a little sneeze, owner says "bless you". 10-15s (Calm stroll): Residential street with blooming trees and parked cars, light breeze, cloudy spring daylight. The dog walks calmly beside the owner's jeans and sneakers, matching their pace, tail swinging gently, petals drifting down around her as the wind moves the branches. Sound: breeze in the trees, birds, distant lawn mower. 15-20s (Petal on her head): Under a cherry tree on the sidewalk, mild spring daylight. The dog stands still looking up at the owner while a single pink petal sits on top of her head between her ears. She blinks, then tilts her head, and the petal slides off. Sound: owner laughing softly saying "you have a flower". 20-25s (Sits by gate): In front of a white picket gate on the blossom street, overcast spring light, pink petals on the path. The dog sits neatly on command, looking up at the camera, tail sweeping petals on the sidewalk, and gets a small treat from the owner's hand. Sound: crunching treat, birds, owner says "pretty girl".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
