Visiting the Lakeside Dock

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm morning on a wooden lake dock: walking out wearing her life vest, sniffing the planks, watching the water, lying down in the middle of the dock and a gentle ear scratch.

TIMELINE

0-5s	Walk out
5-10s	Plank sniffing
10-15s	Watching the water
15-20s	Lies down
20-25s	Ear scratch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Walk out): Wooden dock stretching onto a calm lake, quiet morning, soft overcast daylight, flat grey water, pine trees on the far shore. The dog walks out along the middle of the dock on a short leash, wearing a bright orange dog life vest, claws tapping on the boards. Sound: claws on wood, gentle lapping water, a loon calling far away. 5-10s (Plank sniffing): Middle of the wooden dock, overcast morning light, calm lake around. The dog stops and sniffs along the weathered grey planks and an old coiled rope near a cleat, tail wagging slowly, the orange life vest snug around her chest. Sound: sniffing, soft water against the posts, birds. 10-15s (Watching the water): Near the end of the dock, calm still lake, soft morning daylight. The dog stands beside the owner's legs a safe step back from the edge, wearing her life vest, ears forward, watching a few ripples spread across the water where a fish jumped. Sound: small splash in the distance, quiet water, owner says "see that?". 15-20s (Lies down): Center of the wooden dock, overcast sky, flat calm lake on both sides. The dog lies down on the boards in the middle of the dock, still in her orange life vest, chin resting on her paws, eyes half closed, ears twitching at the sounds of the lake. Sound: gentle lapping, wind in the pines, a sigh. 20-25s (Ear scratch): Same spot on the dock, soft morning light, calm water behind. The owner's hand comes into frame and scratches behind the dog's ear while she lies there. She leans into the hand, eyes closing, then rolls slightly onto her side. Sound: quiet lake, owner whispering "this is nice, huh".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Walk out

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
