Exploring Grandpa's Barn

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A visit to Grandpa's old barn: sniffing the doorway, checking out hay bales, meeting Grandpa's boots, watching a barn cat from a distance and a nap on a hay pile.

TIMELINE

0-5s	Barn doorway
5-10s	Hay bale check
10-15s	Grandpa's boots
15-20s	Barn cat stare
20-25s	Hay nap

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Barn doorway): Big sliding door of an old red wooden barn, sunny afternoon, light streaming in through the open door onto a dusty dirt floor. The dog walks up to the doorway on a leash, stops, sniffs the air inside with her ears up, then steps in carefully. Sound: birds outside, creaking wood, sniffing. 5-10s (Hay bale check): Inside the barn, dim natural light from gaps in the wooden walls, stacked square hay bales along one side, dust floating in sunlight. The dog sniffs along the bottom row of bales, poking her nose into the loose hay, tail wagging steadily. Sound: rustling hay, sniffing, a pigeon cooing in the rafters. 10-15s (Grandpa's boots): Barn interior near an old workbench, warm afternoon light through a dusty window. An older man's worn work boots and denim legs come into frame. The dog walks up, sniffs his boots and leans against his legs while his weathered hand pats her back. Sound: grandpa chuckling "there's my girl", tags jingling. 15-20s (Barn cat stare): Barn interior, dim natural light, a grey tabby cat sitting calmly on top of a high hay bale stack. The dog stands on the floor below on her leash, looking up at the cat with ears pricked and head tilted, tail slowly wagging, staying calm. Sound: quiet barn, a soft meow, owner says "be nice". 20-25s (Hay nap): Corner of the barn on a low pile of loose straw, soft afternoon light through the open door. The dog circles twice and lies down in the straw, curls up with her tail over her nose and closes her eyes, bits of straw stuck in her fur. Sound: straw crunching, a big sigh, birds outside.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Barn doorway

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Big sliding door of an old red wooden barn, sunny afternoon, light streaming in through the open door onto a dusty dirt floor. The dog walks up to the doorway on a leash, stops, sniffs the air inside with her ears up, then steps in carefully. Sound: birds outside, creaking wood, sniffing.

Clip 2 | 5-10s | Hay bale check

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
