Walking the Old Railway Trail

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A walk on a flat gravel rail trail where the tracks used to be: a long straight path, an old stone bridge, sniffing a mile marker post, passing a cyclist calmly and a water break.

TIMELINE

0-5s	Long straight path
5-10s	Stone bridge
10-15s	Old post sniff
15-20s	Calm pass
20-25s	Water break

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Long straight path): Flat gravel rail trail stretching straight ahead between rows of trees, cloudy afternoon light, a few old wooden railroad ties half buried at the edge. The dog trots ahead on a loose leash in the middle of the path, tail swaying, ears relaxed. Sound: crunching gravel, birds, wind in leaves. 5-10s (Stone bridge): Old stone railway bridge on the trail, overcast daylight, moss on the low stone walls. The dog walks across beside the owner's legs, staying in the middle, then stops to sniff a crack in the stone wall with her tail wagging. Sound: footsteps on gravel, water far below, sniffing. 10-15s (Old post sniff): Edge of the rail trail, cloudy daylight, a short weathered concrete post sticking out of the weeds. The dog stops and sniffs all around the base of the post very thoroughly, circling it once, then lifts her head and looks back at the owner. Sound: sniffing, grasshoppers, owner says "done reading the news?". 15-20s (Calm pass): Straight gravel trail with trees on both sides, overcast afternoon light. The owner steps to the side with the dog, who sits calmly by their sneakers on a short leash while a cyclist rolls past on the far side of the path. She watches but stays seated. Sound: bike tires on gravel, a bike bell, owner says "good, stay". 20-25s (Water break): Wooden bench beside the rail trail, soft cloudy light. The owner's hand holds a collapsible blue silicone water bowl on the gravel and pours water from a bottle. The dog laps it up eagerly, water dripping from her chin, tail wagging. Sound: water pouring, loud lapping, birds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Long straight path

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Flat gravel rail trail stretching straight ahead between rows of trees, cloudy afternoon light, a few old wooden railroad ties half buried at the edge. The dog trots ahead on a loose leash in the middle of the path, tail swaying, ears relaxed. Sound: crunching gravel, birds, wind in leaves.

Clip 2 | 5-10s | Stone bridge

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Old stone railway bridge on the trail, overcast daylight, moss on the low stone walls. The dog walks across beside the owner's legs, staying in the middle, then stops to sniff a crack in the stone wall with her tail wagging. Sound: footsteps on gravel, water far below, sniffing.

Clip 3 | 10-15s | Old post sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
