Corn Field Path Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A late summer walk along a dirt path beside tall corn: walking the edge, peeking between the rows, listening to the rustling leaves, a trot down the path and a dusty sit.

TIMELINE

0-5s	Edge walk
5-10s	Row peek
10-15s	Listening
15-20s	Path trot
20-25s	Dusty sit

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Edge walk): Dirt farm path running beside a tall green corn field, late summer afternoon, warm hazy sunlight, corn stalks taller than a person. The dog walks along the path on a loose leash, her paws kicking up a little dust, the corn wall on one side. Sound: corn leaves rustling, crickets, footsteps on dirt. 5-10s (Row peek): Edge of the corn field, warm afternoon light, long straight rows disappearing into shade. The dog stops and pokes her head into the gap between two rows, sniffing the ground, her ears pricked forward and her tail held still behind her on the path. Sound: sniffing, rustling stalks, owner says "no, stay on the path". 10-15s (Listening): Dirt path beside the corn, hazy sunny afternoon, breeze moving the tall leaves. The dog stands still with her head turned toward the field, ears rotating toward the rustling sound, one front paw slightly lifted, then relaxes, lowers the paw and wags her tail at the owner. Sound: wind through corn leaves, a bird flapping out, crickets. 15-20s (Path trot): Long straight dirt path between a corn field and a grassy ditch, warm late afternoon light. The dog trots ahead happily on a long leash, ears bouncing, tail up, a small cloud of dust behind her paws, the corn towering beside her. Sound: quick paws on dirt, panting, distant tractor. 20-25s (Dusty sit): Corner where the dirt path turns, hazy sunlight, corn on one side and a wire fence on the other. The dog sits down when asked, dust on her paws and legs, panting with her tongue out, and looks up at the camera waiting for a treat. Sound: panting, crickets, owner says "good sit" and a treat crunch.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Edge walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
