Seaside Cliff Path Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A breezy walk on a wide, fenced coastal path: starting the trail, sniffing the heather, watching seagulls, a windy trot well away from the edge and a rest on a bench.

TIMELINE

0-5s	Trail start
5-10s	Heather sniff
10-15s	Seagull watch
15-20s	Windy trot
20-25s	Bench rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Trail start): Start of a wide gravel coastal path, windy overcast day, a sturdy wooden post and wire fence along the sea side, grey sea far below. The dog walks on a short leash on the inland side of the path, away from the fence, ears blowing in the wind. Sound: strong wind, distant waves, gulls. 5-10s (Heather sniff): Wide coastal path, grey cloudy daylight, low purple heather and gorse bushes on the inland side. The dog stops to sniff deep into the heather, tail wagging, while the fenced path and the sea stay far to the other side of the frame. Sound: wind, sniffing, owner says "smells like the sea, huh?". 10-15s (Seagull watch): Coastal path, overcast sky, seagulls gliding in the air above the fence line. The dog stands beside the owner's legs on the leash, head tilted up, ears forward, watching the gulls hang in the wind, her mouth closed in concentration. Sound: gulls crying, wind gusts, waves crashing far below. 15-20s (Windy trot): Wide grassy section of the fenced cliff path, grey daylight, wind pushing the grass flat. The dog trots happily on her leash along the inland edge of the path, well away from the fence, ears blown back and fur ruffled by the strong wind. Sound: wind roaring, paws on grass, owner laughing. 20-25s (Bench rest): Old wooden bench beside the coastal path, set back from the fence, overcast sky. The dog lies down on the grass by the bench next to the owner's walking boots, still on her leash, squinting into the wind and licking her lips. Sound: wind, distant waves, owner sighs "what a view".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Trail start

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
