Exploring the Garden Center

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A dog-friendly garden center visit: walking in on leash, sniffing potted plants, sitting by the flower carts, checking out a garden gnome and resting under a shady table.

TIMELINE

0-5s	Walking in
5-10s	Plant sniffing
10-15s	Sits by the carts

20-25s	Shady rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Walking in): Entrance of an outdoor garden center, bright cloudy daylight, rows of potted plants on wooden tables, gravel ground. The dog walks in calmly on a short leash beside the owner's legs, looking around at all the greenery with her ears up. Sound: gravel crunching, birds, a watering hose running. 5-10s (Plant sniffing): Aisle between low tables of potted herbs and flowers, overcast daylight, gravel floor. The dog stretches her nose toward a pot of lavender at her height and sniffs carefully, then moves to the next pot of mint and sniffs that too, tail swaying gently, never touching the plants. Sound: sniffing, distant voices, wind chimes. 10-15s (Sits by the carts): Garden center path next to a metal cart full of colorful flower pots, bright cloudy light. The dog sits calmly on her leash beside the cart while the owner's hand picks up a small pot of red geraniums, her eyes following the pot. Sound: pots clinking, owner says "good sit, almost done". 15-20s (Gnome check): Garden decoration section, overcast daylight, a short ceramic garden gnome standing on the gravel. The dog notices it, stops, stretches her neck forward with ears up and sniffs it cautiously, then steps back and tilts her head, looking from the gnome to the owner and back again. Sound: careful sniffing, owner laughing "he's not real". 20-25s (Shady rest): Under a long wooden plant table in the garden center, cool shade, bright daylight beyond it. The dog lies down on the gravel in the shade under the table, still on her leash, panting gently and watching the owner's legs move along the aisle. Sound: soft panting, water dripping from plant pots, birds.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
