MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Walking the stalls): Small outdoor farmers market on a quiet street, bright overcast morning, a few canvas tents and wooden crates of vegetables. The dog walks calmly on a short leash beside the owner's legs, looking from stall to stall with her ears up. Sound: soft chatter, footsteps, a vendor calling out. 5-10s (Polite sniff): In front of a vegetable stall, cloudy morning daylight, a wooden crate of carrots and potatoes on the ground. The dog stretches her nose toward the crate and sniffs the air above it, then the owner gently shortens the leash and she steps back. Sound: sniffing, owner says "leave it, not ours". 10-15s (Sits while paying): Next to a fruit stall under a white canvas tent, soft overcast light. The dog sits calmly by the owner's sneakers, a canvas bag of produce swinging into frame above her, while she watches people pass at a distance with relaxed ears. Sound: coins and paper bags rustling, chatter. 15-20s (Vendor biscuit): Edge of a stall, bright cloudy morning. A friendly vendor's hand reaches down offering a plain dog biscuit after the owner nods. The dog takes it gently, sits back down on the pavement and crunches it, tail swishing, crumbs falling near the owner's sneakers. Sound: crunching, vendor laughs "she's lovely", owner says "thank you". 20-25s (Shady rest): Under a small tree at the end of the market street, cool shade, overcast daylight beyond. The dog lies down on the pavement next to a full canvas shopping bag, panting softly and watching the market from a calm distance. Sound: distant chatter, birds, soft panting.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
