Walking Past the Sheep Field

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A country lane walk past a sheep field on a short leash: spotting the sheep, a polite sit at the fence, the sheep staring back, calmly walking on and a reward.

TIMELINE

0-5s	Spotting sheep
5-10s	Polite sit
10-15s	Sheep stare back
15-20s	Walking on
20-25s	Reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Spotting sheep): Narrow country lane with a stone wall and wire fence, cool overcast morning, green field with a few white sheep grazing far back. The dog walks on a short leash, then stops and stares at the sheep with her ears straight up and head high. Sound: sheep baaing, wind, owner says "easy, just look". 5-10s (Polite sit): Beside the wire fence of the sheep field, flat grey daylight, the lane muddy and puddled. The dog sits on command at the owner's side, a few steps back from the fence, watching the sheep with ears forward, tail still, leash short. Sound: owner whispering "good, stay", sheep in the distance. 10-15s (Sheep stare back): Sheep field from the lane, overcast daylight. Two woolly sheep at a distance stop chewing and stare toward the dog. In the front of the frame the dog's head and ears are visible from behind, perfectly still, staring back at them. Sound: quiet, a single baa, owner chuckles softly. 15-20s (Walking on): Country lane past the sheep field, grey cloudy daylight, hedgerows on the other side. The dog walks on calmly beside the owner's rubber boots on the short leash, glancing back once at the sheep, then facing forward with a loose tail. Sound: boots on wet lane, birds, owner says "good girl, let's go". 20-25s (Reward): Further down the lane by a wooden gate, overcast daylight, the sheep field behind. The dog sits and the owner's hand gives her a treat. She chews happily, licks her lips and looks up at the camera with a relaxed open mouth. Sound: crunching treat, owner says "so proud of you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Spotting sheep

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. She chews happily, licks her lips and looks up at the camera with a relaxed open mouth. Sound: crunching treat, owner says "so proud of you".

FACEBOOK CAPTION

A year ago she would have barked the whole field down. Today she just looked.
Training pays off.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
