Evening Walk Under the Streetlights

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A quiet night walk around the block under orange streetlights: leaving the house, sniffing a garden wall, watching a cat on a fence, trotting under the lights and coming home.

TIMELINE

0-5s	Leaving home
5-10s	Wall sniff
10-15s	Cat on the fence
15-20s	Trotting under lights
20-25s	Coming home

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Leaving home): Front door of a house at night, porch light on, dark street beyond lit by orange streetlights. The dog steps out onto the porch with a small clip-on light blinking on her collar, her leash in the owner's hand, and walks down the steps. Sound: door closing, keys jingling, crickets. 5-10s (Wall sniff): Quiet residential sidewalk at night, orange streetlight overhead, a low brick garden wall with ivy. The dog sniffs along the bottom of the wall, her collar light blinking softly, tail wagging, her shadow stretched long on the pavement as she moves slowly. Sound: sniffing, distant car, crickets. 10-15s (Cat on the fence): Street at night, orange streetlight, a dark cat sitting on top of a wooden fence across a front yard. The dog stops, stares at the cat with her ears up, tail stiff, then the owner gently tugs the leash and she looks away. Sound: quiet night, owner says "no, leave it". 15-20s (Trotting under lights): Empty residential street at night, a row of orange streetlights, parked cars along the curb. The dog trots ahead on the leash through pools of streetlight, her collar light blinking, her shadow appearing and stretching under each lamp as the owner follows. Sound: soft paw steps, leash jingling, a dog barking far away. 20-25s (Coming home): Front path of the house at night, warm porch light on, front door open with ordinary hallway light inside. The dog walks up the steps and inside, then turns around in the doorway and waits for the owner, tail wagging. Sound: footsteps, door creak, owner says "home sweet home".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Leaving home

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. Front door of a house at night, porch light on, dark street beyond lit by orange streetlights. The dog steps out onto the porch with a small clip-on light blinking on her collar, her leash in the owner's hand, and walks down the steps. Sound: door closing, keys jingling, crickets.

Clip 2 | 5-10s | Wall sniff

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
