Autumn Trail Run

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A trail run through autumn woods: the warm-up stretch, running on leafy paths, jumping a fallen log, a hill climb and a cool-down in the leaves.

TIMELINE

0-5s	Warm-up
5-10s	Leafy path run
10-15s	Log jump
15-20s	Hill climb
20-25s	Cool-down

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Warm-up): Trailhead in an autumn forest, cool crisp morning, soft overcast daylight, orange and yellow leaves everywhere. The dog wears a running harness clipped to the owner's waist leash. She does a long play bow stretch on the path, then shakes and looks up eagerly. Sound: crunchy leaves, birds, owner says "ready to run?". 5-10s (Leafy path run): Forest trail covered in fallen orange and red leaves, cool cloudy morning light. The dog runs steadily ahead on the waist leash, ears bouncing, leaves flicking up behind her paws, the camera shaking with the owner's running steps as the trail curves between tall trees. Sound: leaves crunching, owner breathing hard, panting. 10-15s (Log jump): Narrow autumn trail with a mossy fallen log across it, soft forest daylight. The dog hops easily over the low log in one smooth jump, landing in the leaves and continuing to run, tail flowing behind her, while the owner steps over the log more slowly. Sound: thump of landing, crunching leaves, owner says "nice". 15-20s (Hill climb): Short steep section of the trail, overcast autumn light, tree roots and yellow leaves. The dog pulls gently forward up the slope in her harness, shoulders working and paws digging into the leaves, while the camera bounces with the owner's slower uphill steps. Sound: heavy breathing, scrambling paws, wind in trees. 20-25s (Cool-down): Small clearing at the top of the trail, cool cloudy daylight, thick carpet of fallen leaves. The dog lies down in the leaves panting hard, tongue out, then rolls onto her side and wiggles happily as leaves stick to her coat. Sound: heavy panting, crinkling leaves, owner laughing out of breath.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Warm-up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
