## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Backpack off): Rocky clearing beside a clear mountain stream, bright midday light filtering through pine trees. The owner's backpack drops onto the ground and the dog immediately walks over and sniffs it, tail wagging, nose pushing at the zipper pocket where the snacks are, ears forward. Sound: backpack thud, stream rushing, owner laughs "yes, snacks". 5-10s (Stream drink): Shallow edge of a clear mountain stream, sunlight sparkling on small rocks, pine trees around. The dog stands with her front paws on a flat rock and laps the cold water, water dripping off her chin, then lifts her head to look around. Sound: lapping water, stream flowing, birds. 10-15s (Waiting nicely): Beside the stream, dappled midday light, the owner sitting on a log. The dog sits right in front of the owner's knees, staring at their hands unzipping a small snack bag, ears forward, drool on her lips, perfectly still except for her tail sweeping the pine needles. Sound: zipper, stream, owner says "wait". 15-20s (Biscuit share): Forest clearing by the stream, bright dappled daylight. The owner's hand holds out a plain dog biscuit, the dog takes it gently, lies down on the pine needles and crunches it between her front paws, tail flicking, then sniffs the ground for crumbs. Sound: crunching, stream, owner munching a granola bar. 20-25s (Rock nap): Large flat warm rock next to the mountain stream, sunny midday light. The dog lies stretched out on the rock, eyes closing, ears relaxed, paws dangling over the edge, the stream flowing past just behind her, her side rising and falling slowly. Sound: stream rushing, a sleepy sigh, birds.

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
