Tent Morning in the Woods

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Waking up in a tent at a forest campsite: the morning wake-up inside the tent, unzipping the door, a stretch outside, breakfast by the camp chairs and watching the campfire smoke.

TIMELINE

0-5s	Tent wake-up
5-10s	Unzipping the door
10-15s	Morning stretch
15-20s	Camp breakfast
20-25s	Watching the fire

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. 0-5s (Tent wake-up): Inside a small green dome tent, early morning, dim green-tinted daylight through the tent walls, sleeping bags rumpled. Camera is the owner's point of view lying down. The dog lifts her head from the sleeping bag, yawns widely and stares at the camera. Sound: birds outside, tent fabric rustling, a big yawn. 5-10s (Unzipping the door): Inside the tent at the door, soft morning light. The owner's hand slowly unzips the tent door and cool misty forest daylight shows outside. The dog pushes her head through the opening right away, sniffing the morning air, tail thumping the sleeping bag. Sound: zipper sound, birds, owner says "good morning, woods". 10-15s (Morning stretch): Forest campsite, early misty morning, soft grey daylight, pine trees and a dirt clearing. The dog steps out of the tent, does a long front stretch with her back legs straight, then a back leg stretch, and shakes her whole body. Sound: collar jingle, birds, a woodpecker tapping far off. 15-20s (Camp breakfast): Campsite beside two folding camp chairs, cool morning daylight. The owner's hand pours dry kibble from a zip bag into a collapsible bowl on the dirt. The dog eats eagerly with her tail wagging, a few kibbles falling onto the pine needles that she sniffs out afterward. Sound: kibble rattling, crunching, birds. 20-25s (Watching the fire): Campsite with a small stone fire ring, morning mist, a little smoke rising from a fresh campfire. The dog lies on a blanket next to a camp chair, a safe distance from the fire ring, chin on her paws, ears twitching, watching the smoke drift. Sound: fire crackling, birds, owner sipping coffee.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Tent wake-up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female German Shepherd with a black saddle, rich red-tan legs, chest and face, a dark mask around the muzzle, upright ears, a slightly slimmer build, wearing a faded red nylon collar with a small round metal tag, natural slightly messy coat. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
